ADDICTION AND THE ADOLESCENT BRAIN: WHAT PARENTS NEED TO KNOW

Speaker: Henry Fuqua,
Certified Chemical Dependency Counselor

This seminar will focus on how the addictive brain works in the adolescent mind and what causes them to make the choices they do. We will provide parents a better understanding about drug and alcohol abuse and addiction and how to help the adolescent through the healing process.

Henry Fuqua earned his Bachelor's Degree from Eastern Kentucky University and is certified as a Drug and Alcohol Counselor. He has been working in the field of addiction for over 15 years, with a special interest in working with adolescents. Henry has worked with the adolescent population at Our Lady of Peace for the last seven years.
