

## St. Gabriel Notification System

We will be using our notification system during the 2009-2010 school year. This system is being provided to us free of charge by Appriss Inc. and is the same system used by several government agencies and universities. St. Gabriel School will use this system for emergencies and reminders. Notification will be made by email **and/or** phone.

Many of you filled out this information last year but may want to update. The system will allow for 3 phone numbers and 3 email addresses. You also have the option to receive updates & notifications from the Parish Office and PTSO.

*You only need to fill out the information below if you would like to make changes. Please return at registration.*
